Profile

I am an ambitious tech entrepreneur and enthusiastic full-stack developer who aspires to lead agile software teams. I am a proud family man who enjoys spending time with friends and playing hockey at my local club.

Skills

I will graduate from Mayden Academy in June 2018, after completing a 16-week full-stack, intensive course in software development. I have studied the fundamentals of programming, qualified as a certified Scrum Master (CSM) and worked as part of a team to produce 6 projects.

Please take a look at my portfolio: www.JamesCullen.co.uk

Featured Projects

JavaScript / PHP Quiz, <https://bit.ly/2rteqwy>

(Please use test@test.co.uk to access the project)

Mayden Academy online aptitude test application. We worked collaboratively on an existing code base, working on creating new features and fixing existing bugs. Consuming an API with fetch, I handled the JSON data using ES6 and outputted it using Handlebars templating engine and styled it using SASS.

OOP PHP Ecommerce Store, <https://bit.ly/2lgKVbr>

Totally Pawesome ecommerce clothes store. As a team, we created functionality to view collections of products, filter by category and see individual product pages. The web app was built using in object-oriented PHP working to the SOLID principles loading namespacing with Composer autoloading. We designed our application architecture and created a MySQL database to house our products in.
